Burn-Rite® 1 to 1 DVD Duplicator

DVD Duplicator Features

Burn-Rite® 1 to 1 multi-target DVD/CD duplicator is optimised to produce successful copies of your critical data in the shortest possible time, whilst maintaining the integrity of your data. This duplicator has a small footprint and is ideal for users who are looking for small volume desktop duplication.

Highly reliable and easy to use. Simply select the source disc and the duplicator will automatically detect the disc that you have selected. Insert a blank disc and the DVD duplicator will automatically start the duplication process.

The Burn-Rite® DVD duplicator range incorporates intuitive technology to avoid failures due to buffer problems and includes media write speed optimisation to facilitate successful duplication.

- ★ Standalone operation - no PC required.
- ★ Quiet operation - ideal for desktop use.
- ★ Copy directly from disc to disc - no need to store data on a hard disk.
- ★ Multi-format DVD and CD duplication - supports most CD/DVD formats including DVD-R/ DVD+R.
- ★ Unique cross format duplication - copy your data from DVD-R to DVD+R and vice versa.
- ★ Copy and compare option - to compare the master to the copies (doesn't apply to audio discs).
- ★ Batch counter - counts the number of successful copies from your master DVD or CD.
- ★ Stable, consistent duplication performance - reliable performance when used with quality media.
- ★ Excellent price to performance ratio - ideal for low volume and cost effective DVD or CD duplication.

- ★ Streamlined buffer optimisation™ - supports 8x speed disc to disc writing.
- ★ Auto start technology™ - no need to press go once your blank disc is inserted.
- ★ Auto format recognition™ - automatic detection and selection of master disc format.
- ★ DirectFlash™ support - supports direct firmware updates of fitted drives "in situ". Saving you time and effort when future updates are needed for your DVD writers.
