Burn-Rite® Flexicopy 1 to 11 DVD Duplicator

DVD Duplicator Features

Available in Beige or Black

The Burn-Rite Flexicopy™ 1 to 11 multi-target DVD/CD duplicators are fitted with both a DVD-Rom and 160 Gb hard disc as standard, which allows the flexibility of copying from disc to disc or by recalling images from hard drive partitions. They are optimised to produce successful copies of your critical data in the shortest possible time, whilst maintaining the integrity of your data.

Easy to use - no need to connect to a PC or Mac! Simply select the source disc and the duplicator will automatically detect the format of the disc that you have selected. Insert eleven blank discs and the DVD duplicator will automatically start the duplication process. If less copies are required, simply insert the required number and press Run!

The Burn-Rite® DVD duplicator range incorporates intuitive technology to avoid failures due to buffer problems and includes media write speed optimisation to facilitate successful duplication.

- ★ Standalone operation - no PC required.
 - ★ User selectable source drive - copy from DVD-Rom or hard disc for maximum user flexibility.
 - ★ Onboard hard disc drive - conveniently store commonly recorded discs for immediate recall.
 - ★ Multi-format DVD and CD duplication - supports most CD/DVD formats including DVD-R/ DVD+R.
 - ★ Unique cross format duplication - copy your data from DVD-R to DVD+R and vice versa.
 - ★ Copy and compare option - to compare the master to the copies (doesn't apply to audio discs).
 - ★ Batch counter - counts the number of successful copies from your master.
 - ★ Stable, consistent duplication performance - reliable performance when used with quality media.
 - ★ Excellent price to performance ratio - ideal for reliable low cost DVD or CD duplication.
- ★ 64 MB Streamlined buffer optimisation™ - supports 16x speed writing to all DVD writers.
 - ★ Auto start technology™ - no need to press go if the maximum number of copies required.
 - ★ Auto format recognition™ - automatic detection and selection of master disc format.
 - ★ DirectFlash™ support - Supports direct firmware updates of fitted drives "in situ". Saving you time and effort when future updates are needed for your DVD writers.

Additional Information

DVD duplicator features from DVD-Rom as source:

- ★ User selectable copy speeds for DVD or CD disc to disc copying.
- ★ Copies both DVD-R or DVD+R at upto 8 speed from the DVD-Rom drive to all eleven DVD writers.
- ★ Copies CD-R discs at 40x speed maximum.

DVD duplicator features from hard disc drive as source:

- ★ User selectable duplicator copy speeds for hard disc to DVD duplication -slow down your DVD duplication if you prefer.
- ★ Copies from hard disc at upto 16x speed to all eleven DVD writers to recommended 16 speed DVD-R or DVD+R.
- ★ Onboard 160Gb hard drive stores up to 32 full 4.7Gb DVD's.
- ★ User selectable partition sizes to cater for DVD, or dual layer DVD discs.
