

## Wytron<sup>®</sup> CD-398 CD Duplicator Controller

### CD Duplicator Controller Features

Wytron CD-398 1 to 9 CD duplicator controller. Build your own professional CD replication systems.

The Wytron<sup>®</sup> CD-398 multi-target (1 to 9) CD duplicator controller has established itself as one of the best CD duplication controllers on the market today.

The controller allows you to build CD duplicators with up to a maximum of nine target CD drives. If you require a CD duplicator that has great performance, media compatibility and writing flexibility then this controller is ideal.

- ★ Supports one reading device (DVD-Rom or hard disc) and up to nine CD writers.
- ★ Simple user friendly display with two button operation.
- ★ Standalone operation - no PC required.
- ★ Easily create backups of your critical compact discs.
- ★ Duplicates audio, video and data CD's.
- ★ Stable, consistent CD duplication performance.
- ★ Excellent price to performance ratio - ideal for reliable low cost CD duplication.
- ★ Supports technology to avoid disc failures due to buffer under-runs.
- ★ Streamlined buffer optimisation™ - supporting fast CD writing speeds to all nine writers.
- ★ Auto format recognition™ - automatic detection and selection of master disc format.
- ★ Auto start technology™ - no need to press go if the maximum number of copies is required.

### Additional Information

To view this CD duplicator controller on our website [click here](#).

- ★ User friendly duplicator display showing copy progress, buffer memory remaining, actual writing speed and time elapsed.
- ★ Copy and compare option - to compare the master disc to the copied discs (doesn't apply to audio CD's).
- ★ Multi-format CD duplication - supporting most CD formats including CD-R, CD-RW etc.
- ★ Capable of copying CD-R at high speed.
- ★ Unique cross format CD duplication - copy your data from CD-R to CD-RW.
- ★ Flash upgradeable bios for future duplicator controller updates.
- ★ Supports both disc at once and track at once writing.
- ★ Supports hard discs (up to 160 Gb) to conveniently store your frequently used images.
- ★ Supports both disc to disc duplication and duplication from an image on a hard drive partition.
- ★ User selectable copy speeds for CD disc to disc copying and for duplication from a hard disc partition.
- ★ Supports quick erasing of CD-RW before the copy process.
- ★ Ability to detect and show inserted media make, type, writing speed, and dye type.
- ★ Option to show duplicator setup, which helps when troubleshooting.
