

Copystar DVD-1611 DVD Duplicator Controller

DVD Duplicator Controller Features

The Copystar™ DVD-1611 high speed multi-target DVD/CD Duplicator controller (max 11 targets) provides a combination of reliability and unique user friendly features that make it an ideal controller for professional duplicators.

The controller allows you to build a DVD duplicator which has the performance, compatibility and writing flexibility that modern users demand. When configured correctly it is capable of writing DVD-R or DVD+R at true 16x writing speeds to *all eleven* target writers.

- ★ Excellent DVD-writer compatibility.
- ★ Supports the use of both DVD-Rom and Hard disk.
- ★ 128 Mb buffer memory for excellent duplication speeds.
- ★ User friendly display with simple two button operation.
- ★ Standalone operation - no PC required.
- ★ Stable, consistent duplication performance.
- ★ Duplicates audio, video and data.
- ★ Supports technology to avoid disc failures due to buffer under-runs.
- ★ DirectFlash™ support - supports direct firmware updates of fitted drives "in situ".
- ★ Streamlined buffer technology™ - supporting 16x writing speeds to all eleven writers.
- ★ Auto format recognition™ - automatic detection and selection of master disc format.
- ★ Auto start technology™ - no need to press go if the maximum number of copies required.

Copystar's top of the range DVD-1611 duplication controller card. For users who want fast duplication speeds along with value, stability, reliability and ease of use. The DirectFlash™ feature saves you time and effort when you need to update your DVD duplicator setup.

Additional Information

- ★ Capable of copying both DVD-R or DVD+R at upto 16x speed to eleven DVD writers (from hard drive).
- ★ Unique cross format duplication - copy your data from DVD-R to DVD+R and vice versa.
- ★ Multi-format DVD and CD duplication - supporting most CD/DVD formats including CD-R, DVD-R / DVD+R etc.
- ★ User friendly, feature rich display showing copy progress, actual writing speed and time elapsed on completion.
- ★ Batch counter - counts the number of successful copies from your master DVD or CD.
- ★ Copy and compare option - to compare the master to the copies (doesn't apply to audio discs).
- ★ Supports hard discs to conveniently store your frequently used images.
- ★ Supports partitions sizes for CD, DVD, or DVD dual layer images.
- ★ Supports both disc to disc duplication and duplication from an image on a hard drive partition.
- ★ User selectable copy speeds for DVD/ CD disc to disc copying and for duplication from a hard disc partition.
- ★ Supports quick erasing and full erase of CD-RW, DVD-RW and DVD+RW.
- ★ Ability to detect and show inserted media make, type, writing speed, and dye type.

- ★ Flash upgradeable bios for duplicator.
- ★ Ability to upgrade the firmware of your DVD-Rom and DVD-Writers without removing the drives from your duplicator through our unique DirectFlash™ technology (supported drives only). Saving you time and effort when upgrades are necessary for your fitted drives.
