

## Wytron<sup>®</sup> DVD-319 DVD Duplicator Controller

### DVD Duplicator Controller Features

Wytron DVD-319 1 to 3 DVD Duplicator controller. Ideal for cost effective, low volume DVD replication.

The Wytron<sup>®</sup> DVD-319 multi-target (1 to 3) DVD/CD duplicator controller provides a combination of reliability and performance that makes it ideal for users who require cost effective, small run DVD or CD duplication.

The controller allows you to build a 1 to 1 or 1 to 3 DVD duplicator which has the performance, media compatibility and writing flexibility that modern users demand.

- ★ Supports one reading device (DVD-Rom or hard disc) and up to three DVD writers.
- ★ User friendly display with simple two button operation.
- ★ Standalone operation - no PC required.
- ★ Duplicates audio, video and data.
- ★ Stable, consistent DVD and CD duplication performance.
- ★ Supports technology to avoid disc failures due to buffer under-runs.
- ★ Streamlined buffer optimisation™ - supporting fast dvd writing speeds to all three writers.
- ★ Auto format recognition™ - automatic detection and selection of master disc format.
- ★ Auto start technology™ - no need to press go if the maximum number of copies is required.
- ★ Excellent price to performance ratio - ideal for reliable low cost DVD or CD duplication.

### Additional Information

To view this DVD duplicator controller on our website [click here](#).

- ★ User friendly display showing duplicator copy progress, buffer memory remaining, actual writing speed and time elapsed.
- ★ Batch counter - counts the number of successful copies from your master DVD or CD.
- ★ Copy and compare option - to compare the master disc to the copied discs (doesn't apply to audio discs).
- ★ Multi-format DVD and CD duplication - supporting most CD/DVD formats including CD-R, DVD-R / DVD+R etc.
- ★ Capable of copying both DVD-R or DVD+R at eight speed from DVD-Rom.
- ★ Unique cross format duplication - copy your data from DVD-R to DVD+R and vice versa.
- ★ Flash upgradeable bios for future duplicator controller updates.
- ★ Supports both disc at once and track at once writing.
- ★ Supports hard discs (up to 160 Gb) to conveniently store your frequently used images.
- ★ Supports partitions sizes for CD, DVD, or DVD dual layer images.
- ★ Supports both disc to disc duplication and duplication from an image on a hard drive partition.
- ★ User selectable copy speeds for DVD/ CD disc to disc copying and for duplication from a hard disc partition.
- ★ Supports quick erasing of CD-RW, DVD-RW and DVD+RW before the copy process.
- ★ Ability to detect and show inserted media make, type, writing speed, and dye type.
- ★ Option to show duplicator setup, which helps when troubleshooting.
