

Wytron[®] DVD-399 DVD Duplicator Controller

DVD Duplicator Controller Features

Wytron's DVD-399 high performance dvd duplication controller card. Ideal for users who require stability, reliability and performance.

The Wytron[®] DVD-399 multi-target DVD/CD Duplicator controller (1 to 9) is the market leader in its class. It provides a mix of reliability and performance that makes it the professional's choice.

The controller allows you to build a DVD duplicator which has the performance, compatibility and writing flexibility that modern users demand. When configured correctly it is capable of writing DVD-R or DVD+R at 16 speed to a maximum of seven target writers. If the full nine writers are used, the DVD-399 will support 12 speed writing.

- ★ Supports one reading device (DVD-Rom or hard disc) and up to nine DVD writers.
- ★ User friendly display with simple two button operation.
- ★ Standalone operation - no PC required.
- ★ Duplicates audio, video and data.
- ★ Stable, consistent duplication performance.
- ★ Supports technology to avoid disc failures due to buffer under-runs.
- ★ Streamlined buffer optimisation™ - supporting fast dvd writing speeds to all nine writers.
- ★ Auto format recognition™ - automatic detection and selection of master disc format.
- ★ Auto start technology™ - no need to press go if the maximum number of copies required.
- ★ Excellent price to performance ratio - ideal for reliable low cost DVD or CD duplication.

Additional Information

To view this DVD Duplicator controller on our website [click here](#).

- ★ Capable of copying both DVD-R or DVD+R at upto 16 speed to seven DVD writers or 12x speed to nine writers (from hard drive).
- ★ Unique cross format duplication - copy your data from DVD-R to DVD+R and vice versa.
- ★ Multi-format DVD and CD duplication - supporting most CD/DVD formats including CD-R, DVD-R / DVD+R etc.
- ★ User friendly display showing copy progress, buffer memory remaining, actual writing speed and time elapsed.
- ★ Batch counter - counts the number of successful copies from your master DVD or CD.
- ★ Copy and compare option - to compare the master to the copies (doesn't apply to audio discs).
- ★ Supports both disc at once and track at once writing.
- ★ Supports hard discs (up to 160 Gb) to conveniently store your frequently used images.
- ★ Supports partitions sizes for CD, DVD, or DVD dual layer images.
- ★ Supports both disc to disc duplication and duplication from an image on a hard drive partition.
- ★ User selectable copy speeds for DVD/ CD disc to disc copying and for duplication from a hard disc partition.
- ★ Supports quick erasing of CD-RW, DVD-RW and DVD+RW before the copy process.
- ★ Ability to detect and show inserted media make, type, writing speed, and dye type.
- ★ Flash upgradeable bios for future duplicator updates.
