

Copystar CPI-1611 DVD Duplicator Controller (IDE)

DVD Duplicator Controller Features

Available in Beige or Black

Copystar's CPI-1611 duplication controller card. For users who want fast duplication speeds along with value, stability, reliability, and ease of use. Ideal for maximising duplication throughput. Save time and effort when keeping your DVD duplicator upto date the unique DirectFlash™ feature.

The Copystar™ CPI-1611 high speed multi-target DVD/CD Duplicator controller (max 11 targets) provides a combination of reliability and unique user friendly features that make it an ideal controller for professional duplicators.

The controller allows you to build a DVD duplicator which has the performance, compatibility and writing flexibility that modern users demand. When configured correctly it is capable of writing DVD-R or DVD+R at true 16x writing speeds to *all eleven* target writers.

- ★ Excellent DVD-writer compatibility.
- ★ Supports the use of both DVD-Rom and Hard disk.
- ★ 64 MB buffer memory for excellent duplication speeds.
- ★ User friendly display with simple two button operation.
- ★ Standalone operation - no PC required.
- ★ Stable, consistent duplication performance.
- ★ Duplicates audio, video and data.
- ★ Supports technology to avoid disc failures due to buffer under-runs.
- ★ DirectFlash™ support - supports direct firmware updates of fitted drives "in situ".
- ★ Streamlined buffer technology™ - supporting 16x writing speeds to all eleven writers.
- ★ Auto format recognition™ - automatic detection and selection of master disc format.
- ★ Auto start technology™ - no need to press go if the maximum number of copies required.

Additional Information

- ★ Capable of copying both DVD-R or DVD+R at upto 16x speed to eleven DVD writers (from hard drive).
- ★ Unique cross format duplication - copy your data from DVD-R to DVD+R and vice versa.
- ★ Multi-format DVD and CD duplication - supporting most CD/DVD formats including CD-R, DVD-R / DVD+R etc.
- ★ User friendly, feature rich display showing copy progress.
- ★ Batch counter - counts the number of successful copies from your master DVD or CD.
- ★ Copy and compare option - to compare the master to the copies (doesn't apply to audio discs).
- ★ Supports hard discs to conveniently store your frequently used images.
- ★ Supports partitions sizes for CD, DVD, or DVD dual layer images.
- ★ Supports both disc to disc duplication and duplication from an image on a hard drive partition.
- ★ User selectable copy speeds for DVD/ CD disc to disc copying and for duplication from a hard disc partition.
- ★ Supports quick erasing and full erase of CD-RW, DVD-RW and DVD+RW.
- ★ Ability to detect and show inserted media make, type, writing speed, and dye type.
- ★ Flash upgradeable bios for duplicator.
- ★ Ability to upgrade the firmware of your DVD-Rom and DVD-Writers without removing the drives from your duplicator through our unique DirectFlash™ technology (supported drives only). Saving you time and effort when upgrades are necessary for your fitted drives.
