

Copystar CPS-1611 DVD Duplicator Controller (SATA)

DVD Duplicator Controller Features

Available in Beige or Black

The Copystar™ CPS-1611 high speed multi-target DVD/CD Duplicator controller (max 11 targets) provides a combination of reliability and unique user friendly features that make it an ideal controller for professional duplicators.

The controller allows you to build a DVD duplicator which has the performance, compatibility and writing flexibility that modern users demand. When configured correctly it is capable of writing DVD-R or DVD+R at true 16x writing speeds to all eleven target writers.

- ★ Excellent SATA based Blu-Ray & DVD-writer compatibility.
- ★ Supports the use of both DVD-Rom and Hard disk. (max. of ten writers if both are used).
- ★ 64 MB buffer memory for excellent duplication speed and reliability.
- ★ User friendly display with simple two button operation.
- ★ Standalone operation - no PC required.
- ★ Stable, consistent duplication performance.
- ★ Duplicates audio, video and data.
- ★ Supports technology to avoid disc failures due to buffer under-runs.

Copystar's CPS-1611 duplication controller card. For users who require fast duplication speeds along with value, stability, reliability, and ease of use. Ideal for maximising duplication throughput. DirectFlash™ support makes keeping your duplicator upto date simple and saves you time.

- ★ DirectFlash™ support - supports direct firmware updates of fitted drives "in situ".
- ★ Streamlined buffer technology™ - supporting fast writing speeds to all eleven writers.
- ★ Auto format recognition™ - automatic detection and selection of master disc format.
- ★ Auto start technology™ - no need to press go if the maximum number of copies required

Additional Information

- ★ Capable of copying recordable Blu-Ray or DVD discs from DVD-Rom or Hard disk drive.
- ★ Multi-format Blu-Ray, DVD and CD duplication - supporting most Blu-Ray / CD / DVD formats.
- ★ User friendly, feature rich display showing copy progress, and percentage progress.
- ★ Batch counter - counts the number of successful copies from your master DVD or CD.
- ★ Copy and compare option - to compare the master to the copies (doesn't apply to audio discs).
- ★ Supports hard discs to conveniently store your frequently used images.
- ★ Supports partitions sizes for BD-R, DVD, or DVD dual layer images.
- ★ Supports both disc to disc duplication and duplication from an image on a hard drive partition.
- ★ User selectable copy speeds for BD / DVD / CD disc to disc copying and for duplication from a hard disc partition.
- ★ Ability to detect and show inserted media make, type, writing speed, and dye type.
- ★ Flash upgradeable bios for duplicator.
- ★ Ability to upgrade the firmware of your system drives without removing the drives from your duplicator using our unique DirectFlash™ technology (supported drives only). Saving you hours when essential upgrades are necessary.
